This is how we "dough" it

We let the fermentation do the work.

Our dough rises for over 20 hours, before we shove it into our stone oven.

While the heat forms the characteristic burned spots, the crust rises high.

Topped with the best ingredients, our buns as perfect composition of flavors

During closing time, we love experimenting with dough. In believe of constant innovation, our dough can be slightly different the next time you visit.

BREAKFAST

SOCIAL'S BREAKFAST 12
